DETAILED ACTION

The following action is in response to the amendment filed for application 10/666,213 on February 8, 2006.

Drawings

The drawings were received on February 8, 2006. These drawings are approved.

EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Larry Guffey on March 7, 2006.

The application has been amended as follows:

In the Claims:

claims 2-11 and 15 have been canceled.

In claim 12, on line 13, after "flexpline," "and" has been canceled.

Art Unit: 3681

In claim 12, after line 13, the following has been inserted:

-- wherein said means is operable so that the action of said radial wave causes at least one of said deformed flexspline teeth to engage at a point on the toothed side of said circular spline in such a manner that said engagement point passes as a wave around the inner perimeter of said circular spine, said movement of said engagement point causing said flexspline to rotate around said central axis; and --

In claim 17, on line 15, after "teeth to engage at a point," -- on -- has been inserted.

Allowable Subject Matter

Claims 12-14 and 17 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art of record fails to show or render obvious the motor as claimed, and particularly including a radial wave actuating means comprising a plurality of diaphragm pistons, a diaphragm that covers said cavity and a top action surface, said pistons being mounted along the perimeter of said ring boundary surface; a planetary gear; and including the remaining structure and controls of claims 12 and 17, respectively.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Art Unit: 3681
